I have a Kawasaki 19 hp fh601v motor on a zero turn. This ...

Hi James, I had just asked a question regarding a 19 HP kawasaki engine that was smoking. You advised me to take a compression test and my worker did. It was 130 PSI on both both cylinders and the same on another engine that is exactly the same. (Not quite sure I believe him as he is the one using the machine a responsible for it).

Kawasaki FH680V is hard to start | Lawn Mower Forum

BUT, cyl #2 is the one not producing. Kawasaki calls for 52 lbs minimum. I can pull the plug wire off #1 and it dies. I can pull plug wire on #2 and no difference. Both have a blue spark, both rockers on each cylinder are moving. I've also run it with the kill wires disconnected. I'm stumped! This is the same engine as the John Deere 737 zero turn.

I had just asked a question regarding a 19 HP kawasaki ...
