system, the detections of which were tragically ignored at Pearl Harbor. British development, spurred by the threat of war, began in earnest with work by Watson-Watt in 1935. The British demonstrated pulsed radar that year, and by 1938 established the famous Chain Home surveillance radar network that remained active until the end of World War II.

Introduction to Radar Systems by Merrill I. Skolnik

This course introduces the audience to radar systems in a military context, with a focus on search and tracking radars associated with modern day threats. Conducted in six modules covering: radar fundamentals, the electromagnetic environment, target detection, antennas, arrays, signal processing, search radars, and tracking radars.

Introduction to Radar Systems : Merrill I. Skolnik : Free ...

Shelves: signals-communication. A good read and still pretty applicable. There are more modern texts in the field, but few surpass its impact in the field. I would further recommend Principles of Modern Radar by Mark Richards or Modern Radar System Analysis by David K Barton as a more current and applicable text in the field.
