How to solve a magic square - Cosmos Magazine

A magic square is a square array of numbers with the property that the sum of the numbers in each row, column and diagonal is the same, known as the “magic sum”. The ‘order’ is the number of rows and columns, so a magic square of order 4 means it has 4 rows

Fill in the magic square, but only in Highlighted areas. Begin filling in the numbers of your magic square from left to right, but only write in the number if the box falls into a Highlight. So, in a 4x4 box, you would fill in the following boxes: 1 in the top-left box and 4 in the top-right box; 6 and 7 in the center boxes in Row 2
